

euroloc

euroloc

The key to your success

1 Well proven

Key and chain are made of stainless steel. The key is small and thanks to its S-shape extremely stable.

2 Durable connection

The joint between key and chain is rock solid. The plastic casing is moulded around this joint and therefore extremely resilient.

3 Clever

To distinguish two different types of trolleys a special key version is available that is not compatible to the regular key.

4 Reduced costs

To reduce costs, key and chain are also available in zinc chromated steel.

euroloc – Handles everything

With the new euroloc, the shopping trolleys will lead with style. Its ergonomical design as well as extreme sturdiness are the two outstanding features. Placed on the right end side, the entire handle is a nice and undisturbed ad space.

Space for advertising clip.

The euroloc can be delivered for round handle bars as well as for our ergogrip FG. Like all coin deposit systems from systec, the euroloc was designed service friendly. Mounting is easy and quick, no drilling of the handle, no screws.

Sleek design.

Time saving: The coin cassette can be exchanged within seconds. The clever euroloc design is cost saving, it makes the right end cap redundant.

Also available with two coin slots.

euroloc in detail

1

2

3

4

1 Time is money

The euroloc can be mounted quick and easy. No drilling, no screws.

2 Easy to service

Coin cassette and chain can be exchanged in seconds.

4 Extra strong

As an option euroloc is available with a metal locking hook for drag force of up to 380 kg.

4 Durable

Coin symbols are engraved and therefore long lasting.

The Number 1 for coin deposit locks

Founded in 1974, systec developed the first patented coin lock for shopping trolleys in 1981. Since that date, systec has become the global and technology leader in this field. Its products now range from coin deposit locks and antistatic handlebar systems, trolley advertising systems to child safety and containment systems for shopping trolleys. systec is the supplier to all leading shopping trolley manufacturers and exports its products to more than 50 countries.
